

Composition of Capital, Liquidity, and Leverage Disclosures

As at 30 June 2019

Executive Summary

All Bahraini conventional bank licensees are required to report the composition of capital in addition to the main features of the regulatory instruments. Furthermore, banks must provide a report of all regulatory capital elements with a reconciliation to the published financial statements

The purpose of the disclosure is to enable market participants to compare the capital adequacy, liquidity, and leverage of banks across jurisdictions and to improve consistency and ease of use of disclosures relating to the composition of regulatory capital.

- 1- Reconciliation Requirements: Established to ensure that a full reconciliation of all regulatory capital elements back to the published consolidated financial statements is provided in a consistent manner.
- 2- Main Features of Regulatory Capital Instruments: Provides a description of the main features of regulatory capital instruments issued. Established to ensure that banks provide a description of the main features of the regulatory capital instruments issued.
- 3- Capital Components: Discloses the components of capital, taking into consideration the transitional arrangements. The disclosure provides the full terms and conditions of regulatory capital instruments and reports the calculation of any ratios involving components of regulatory capital, to enable the Prudential Information Returns (PIR) to be reconciled with the consolidated financial statements.
- 4- Leverage Ratio: In June 2018, the Central Bank of Bahrain issued regulations on the Financial Leverage ratio as part of the CA: Capital Adequacy Module Chapter 15, which has been implemented as of 30 June 2019. The Leverage Ratio considers all exposures both on and off balance sheet without risk weighing them to determine the adequacy of the bank's core capital to cover its exposures.
- 5- Lequidity Ratio: In August 2018, the Central Bank of Bahrain issued it's regulations on Liquidity Risk Management (Module LM). The module mandates that banks must adequately manage their assets and liabilities to create strong short-term resilience and a sufficient ability to meet the bank's net cash outflows within 30 days.

The format and the level of disclosure in the attached report is dictated by the Central Bank of Bahrain (CBB) and reflects a proforma issued by the Central Bank.

Step 1: Balance sheet under the regulatory scope of consolidation

This step in not applicable to the Bank since the scope of regulatory consolidation and accounting consolidation is identical.

Step 2: Reconcilation of Published Financial Balance Sheet to Regulatory Reporting as at 30 June 2019

Consolidated Liquidity Coverage Ratio as of 30 June 2019

In August 2018, the Central Bank of Bahrain issued it's regulations on Liquidity Risk Management (Module LM). The module mandates that banks must adequately manage their assets and liabilities to create strong short-term resilience and a sufficient ability to meet the bank's net cash outflows within 30 days.

As per CBB Module LM, banks are required to meet the minimum LCR of at least 100% on a daily basis. Below is National Bank of Bahrain's LCR disclosure as of 30th June 2019:

BD '000

	CPileted LCD	Total unweighted value	Total weighted
	Consolidated LCR	(average) 1	value (average) 1
Hig	h-Quality Liquid Assets	·	
1	Total HQLA		1,668,843

			Total adjusted
			value
21	Total HQLA		1,668,843
22	Total net cash outflows		517,648
23	Liquidity Coverage Ratio (%)		322.4%

^{1.} As per CBB Module LM, banks are required to report their Consolidated LCR on a quarterly basis via simple daily averages. However, as the module states that the regulations go into effect at 30 June 2019, the figures in the table above are as of 30 June 2019. Commencing from next quarter, the bank will report quarterly LCR using daily averages as specified by the CBB.

 $^{{\}bf 2.\ Includes\ retail\ and\ SME\ deposits\ from\ the\ bank's\ overseas\ branches.}$

Consolidated Leverage Ratio as of 30 June 2019

In June 2018, the Central Bank of Bahrain issued regulations on the financial leverage ratio as part of the CA: Capital Adequacy Module Chapter 15, which has been implemented as of 30 June 2019.

The leverage ratio calculations take into account all on balance sheet exposures, all off balance sheet exposures, and any derivative exposures after applying the applicable adjustments as per the CBB guidelines. The leverage ratio represents how well the bank's core capital covers the bank's total exposures.

CBB requires banks to hold a minimum leverage ratio of at least 3%.

No.	Item	Amount (BD 000's)
